Beads & Patches

100

Takionic® beads are a major breakthrough of the tachyon concept. These tiny mediators are mysteriously attractive with a silent message of harmony. Each bead is like an antenna that helps the body attract tachyon energy from the atmosphere. To receive the most benefit, adhere one or more beads to acupuncture (energy-sensitive) points or place on the local area of internal or external concern. The Bead patch is a very handy way to use the beads. Just carry a 30- (50-, 100-) bead patch in your pocket or tape it to the desired area. There is no wrong way to use the beads – be creative.
